### **Source Water Spill Reported in Bowman County**

BISMARCK, N.D. – The North Dakota Department of Health (NDDoH) has been notified of a source water spill at a well owned by Denbury Onshore in Bowman County. The site is located approximately six miles south of Marmarth. Out of the 213 barrels spilled, approximately 33 barrels of water were not contained within the site.

Source water is used for enhanced oil recovery and is higher in dissolved solids and minerals than fresh water. The spill was a result of a pipeline leak. The NDDoH is responding and will work with the company on remediation plans.

For more information, contact Bill Suess with the NDDoH at 701.328.5216.
