

# LPH Decision-Making Protocol to Assist School Districts

Outside of state, county, or local executive order, district-wide closures should occur under only the most extreme circumstances. The use of "percent active cases" as a sole determinant of district-wide closure is strongly discouraged. Every effort should be made to make school-level decisions that allow schools that are not impacted by active cases to conduct in-person instruction at some level. District administrators are strongly encouraged to include local, regional, and/or state public health officials in any discussions regarding district closure.
