The vaccine inventory displayed in the NDIIS includes:

- Vaccines sent to you by the NDDoH if enrolled to receive publicly funded vaccine.
 - The NDDoH will log and transfer them to you.
- Vaccines you receive from other provider sites.
- Privately purchased vaccines entered in to your NDIIS inventory through Vaccine Management.

The Doses on Hand quantity is affected by performing the following actions:

- Manually adjusting the number of doses on hand.
- Transferring doses to another NDIIS provider or receiving transferred doses from another NDIIS provider.
- Wasting doses in the Vaccine Ordering, Returns and Wastages module.
- Returning doses in the Vaccine Ordering, Returns and Wastages module.
- Adding doses by lot number to a patient's NDIIS immunization record.

The **Lot Distribution** tab displays a provider's inventory of vaccines. The information provided includes the Lot Number, Vaccine, Expiration Date, and Doses on Hand.

Expired Lots and No Doses at Hand:

NDIIS users have the ability to display expired lots and lots with no doses on hand in the inventory list. To do so, click the check box located on the lower left-hand side of the window. When the box is checked, the corresponding lots will be included. When the box is unchecked, the lots will not be included in the list.

Adjust Doses on Hand:

This action is necessary when actual physical inventory count of the doses on hand in your refrigerator or freezer does not match the number of doses on hand in your NDIIS inventory.

To adjust the doses at hand:

- 1.) Select **Adjust** in the **Type** drop-down box.
- 2.) Click the **Edit** button in the far left column next to the lot that you would like to adjust.
- 3.) Type in the correct number of doses on hand. The quantity will display in the column labeled **Actual on Hand.**
- 4.) Click **Save** to keep lot adjustments, or **Cancel** to discard adjustments.
- 5.) Click **Adjust** to complete the inventory update, or **Cancel** to cancel any changes made.
- 6.) Type your comments into the pop-up window and click **OK**.

Note: You may change the number of doses on hand for multiple lots at once. To do so, simply change the quantity for each lot by using the **Edit** function, save each lot number adjustment, and click **Adjust** to update all on all actual on hand amounts at once.

Transfer Doses on Hand:

This action is necessary when you need to transfer vaccine to another provider site. The quantity of doses transferred will be removed from your NDIIS inventory and will be added to the inventory of the receiving provider. A packing slip to include with the shipment can be generated at this time.

The NDDoH recommends the sending provider complete the transfer in the NDIIS when they know the vaccine will be leaving their facility. The sending provider needs to know the NDIIS provider ID for the receiving facility but does not need to have access to the receiving provider's ID in the NDIIS.

Note: The following steps must be completed in the exact order outlined .

To transfer doses:

- 1.) Select **Transfer** in the **Type** drop-down box
- 2.) Type the date of the transfer into the **Trans. Date** field if different from the default date (today's date).
- 3.) Click the **Edit** button in the far left column of the lot in the list that you are transferring.
