MEMO

TO: North Dakota Prevention Partnership Providers
FROM: Abbi Berg
      VFC Manager
RE: 2019 Prevention Partnership Enrollment
DATE: February 8, 2019

Annually, all providers currently enrolled in the Prevention Partnership Program are required to renew their enrollment to receive Vaccines for Children (VFC) or state-supplied vaccine. The 2019 enrollment cycle will again be largely done online. The online enrollment survey must be completed online, and the last page of the survey printed and signed by the Medical Director and returned to the North Dakota Department of Health (NDDoH) prior to Friday, March 1, 2019.

Please refer to the enclosed 2019 Prevention Partnership Enrollment Checklist to ensure that your facility has completed all sections of the 2019 enrollment process. The checklist is for provider use only and does not need to be returned to the immunization program.

PROVIDER ENROLLMENT SURVEY

The 2019 enrollment survey can be found on the immunization program website at www.ndhealth.gov/immunize/. The enrollment survey serves as the main portion of enrollment, by asking providers for current primary and backup contact information, reviewing all VFC program requirements and signing the agreement. The chief physician or medical director who signs standing orders for immunizations is required to sign the last page of the enrollment survey. The last page of the survey that contains the Medical Director’s signature must be returned to NDDoH prior to the due date. All other persons with prescription-writing authority who administer state-supplied vaccine must be listed in the enrollment survey. Birthing hospitals are exempt from this requirement. Only the medical director needs to be listed for birthing hospitals. If provider information changes (i.e., providers join or leave the practice), it must be reported to the NDDoH Immunization Program as soon as possible. Providers should read the enrollment survey in its entirety and ensure that all program requirements are being met by the facility. Compliance with program requirements will be assessed at provider site visits, at a minimum of every other year.

PROVIDER PROFILE FORM (Salmon)

A pre-populated provider profile will be included in the 2019 enrollment mailing. "Provider Estimates" have been completed for you based on North Dakota Immunization Information.

<table>
<thead>
<tr>
<th>Disease Control</th>
<th>Microbiology Lab</th>
<th>State Forensic Examiner</th>
</tr>
</thead>
<tbody>
<tr>
<td>701.328.2378</td>
<td>701.328.6272</td>
<td>701.328.6138</td>
</tr>
<tr>
<td>800.472.2180 (N.D.)</td>
<td>701.328.6280 (Fax)</td>
<td>701.328.6228 (Fax)</td>
</tr>
<tr>
<td>701.328.2498 (Fax)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
System (NDIIS) data for calendar year 2018. If you disagree with the pre-populated estimates, please cross them out and change them. Please return the provider profile with corrections along with the facility’s signed enrollment page. If there are no changes from the pre-populated profile then it does not need to be returned. If NDIIS data is unavailable for your facility, you will have to complete this portion on your own using benchmarking or encounter data.

Also, if a provider does not offer all ACIP-recommended vaccines (considered a specialty provider) please complete the section of the provider profile describing which vaccines are offered and return with the signed enrollment page.

2019 ANNUAL PROVIDER EDUCATION

The Centers for Disease Control and Prevention (CDC) requires immunization programs to train their VFC providers annually about VFC requirements, including proper vaccine storage and handling.

NDDoH is again requiring all primary and back up vaccine coordinators (minimum of two people per site) to take a web-based training by the enrollment deadline of March 1, 2019. The trainings are requirements for VFC enrollment.

The training was prepared by NDdOH and should take approximately one hour. This is a different educational module than what has been required in the past. The training and post-test are available at: www.ndhealth.gov/immunize/providers/education.aspx. The educational portion of enrollment will not be complete until the post-test is completed in the NDdOH website.

Anyone who has completed the training and posttest since January 1, 2019 does not need to redo the education. As long as the post-test was taken on the immunization program’s website you will receive credit for taking the course.

2020 ADMINISTRATION FEE BILLING POLICY CHANGE

Starting January 1, 2020 providers will no longer be able to bill for the administration fee after the date of service. The provider must waive the administration fee if the patient or parent is unable to pay the fee when the service is received, and the provider cannot bill the patient/parent for any waived administration fees at a later time. Providers may continue to bill for office visits as allowed under VFC policy, and unpaid bills related to office visit fees or other fees (e.g., labs) may be sent to collections. Unpaid administration fees, however, may not be sent to collections, and the provider may not refuse to vaccinate an eligible child whose parents have unpaid vaccine administration fees. As more information is released from the CDC it will be sent out to all enrolled facilities.

If you have any questions, please contact the NDdOH Immunization Program at 701.328.3386 or toll-free at 800.472.2180.

Thank you for your participation in this important program.
