### Vaccines Being Exempted (check all that apply)

- ☐ Diphtheria, Tetanus, Pertussis (DTaP)
- ☐ Polio
- ☐ Haemophilus influenzae type B (Hib)
- ☐ Pneumococcal Conjugate (PCV)
- ☐ Hepatitis A
- ☐ Pneumococcal Polysaccharide (PPSV)
- ☐ Hepatitis B
- ☐ Rotavirus
- ☐ Human Papillomavirus (HPV)
- ☐ Tetanus-Diphtheria-Pertussis (Td/Tdap)
- ☐ Measles-Mumps-Rubella (MMR)
- ☐ Varicella (chickenpox)
- ☐ Meningococcal ACYW-135 (MCV4)
- ☐ Zoster (shingles)
- ☐ Meningococcal B
- ☐ Seasonal Influenza
- ☐ COVID-19
- ☐ Other (specify) __________________________

### Religious/Moral/Philosophical Exemption

☐ I adhere to a belief that opposes vaccinations.

Printed Name

Signature  

Date

**Relationship to Individual**

☐ Self  ☐ Parent/Guardian

### Medical Exemption

☐ The physical condition of the above-named person is such that immunization would endanger their life or health or is medically contraindicated due to other medical conditions.

Physician Signature  

Date

---

1 A parent/guardian may only claim an exemption for a child under the age of 18 years. Once an individual turns 18 years, they must claim their own immunization exemption.
History of Disease Exemption
☐ To the best of my knowledge, the above-named person has had prior infection as indicated by prior diagnosis or prior vaccination as indicated by laboratory confirmation.

Vaccines Being Exempted (check all that apply)
☐ Hepatitis A ☐ Measles
☐ Hepatitis B ☐ Mumps
☐ Varicella (chickenpox) ☐ Rubella

Physician Signature

Date

---

2 History of disease exemption can only be claimed for hepatitis A, hepatitis B, measles, mumps, rubella, and varicella (chickenpox).

3 Someone can only be considered exempt from MMR if they had or have laboratory evidence of immunity to measles, mumps, AND rubella. Immunity to only one or two of the three diseases does not exempt them from the MMR vaccine recommendation/requirement.
